

**FOR IMMEDIATE RELEASE:**

**Kitchens Plus Keeps it Local with Cabinet Manufacturing in El Cajon**

**La Mesa, CA, June 17, 2008:** Kitchens Plus has forged a partnership with a local cabinet manufacturer to design and build a complete line of custom cabinets to be sold under the Kitchen Plus brand. The new line of custom cabinetry will include European and traditional face frame style cabinets. The cabinet line will include high-end upgrades as standard features; such as six-way adjustable hinges, soft-close drawers, wood drawer boxes, dovetail joints and under mount full-extension glides. The cabinetry will be built in a state-of-the-art manufacturing facility in El Cajon, CA under the direct supervision of Kitchens Plus.

All the cabinetry will be custom-designed through the Kitchens Plus unique customer-centered design process. Kitchens Plus' Design Team will oversee the manufacturing process to certify that the finished product will meet the tight specifications of each custom project. The high quality finished cabinets will be delivered in less time than out-of-state manufacturers, with more versatility and finish choices, at very competitive prices. The Kitchen Plus brand will assure the highest quality cabinetry with long-term local support, including a limited life-time warranty.

"Kitchen Plus has been purchasing custom cabinets from eleven different manufacturers in nine states for more than twenty four years. In addition to our current lines, we felt it was time for us to bring the manufacturing home to San Diego's East County," states Matt Barns, President of Kitchens Plus. "Locally we have better quality control, savings in transport, more responsive warranty and repair service and it keeps the jobs and money in our local economy."

Barns Continued; "In today's real estate market, a remodel is the perfect solution to improving the lifestyle and financial position of homeowners and their families. You imagine, we create... then you enjoy your new lifestyle and reap the financial benefits of your investment."

Kitchens Plus is a full-service General Contractor specializing in kitchen and bathroom remodeling. They have been remodeling homes throughout San Diego for more than 24 years. Their remodeling process is unique and all-inclusive; it is a customer-centered design-build approach that leads to complete satisfaction with cost-effective pricing. Kitchens Plus has a clear understanding that a home remodel is more than just a construction project; for their customers, it is an improvement in lifestyle and an investment in their future.
